ALL GRADES with CENTRAL IDEAS

PACING KEY:	Fall #1	Fall #2	Winter #3	Winter #4	Spring #5	Spring #6
Transdisc. Unit GRADE	WHO WE ARE	WHERE WE ARE IN PLACE AND TIME	HOW WE EXPRESS OURSELVES	HOW THE WORLD WORKS	HOW WE ORGANIZE OURSELVES	SHARING THE PLANET
Kindergarten	Learning about each other helps us understand and connect to others in the world.	People come from and travel to different places in different ways and for different reasons.	People express stories in different ways.	<i>[Learning included in Sharing the Planet]</i>	People work together in a community.	People make choices that can change their environment.
Grade 1	Individual choices and actions contribute to the well-being of a group.	Humans can adapt to the environmental and social conditions around them.	Rhythm and patterns help living things communicate and express themselves.	Living things use their bodies in different ways to get what they need from their environment	Transportation systems affect the ways people live.	Individuals and groups can take action to share resources.
Grade 2	Individuals make a difference in the lives of others.	Earth's changes over time causes living things to adjust the ways they live.	Stories can have meanings that transcend place and time.	Humans learn about matter by interacting with it.	People use organizational systems to create order.	Interdependence contributes to the state of an environment.
Grade 3	Understanding ourselves helps us make responsible choices.	Interaction among environment, cultures and peoples change communities over time.	Weather and climate impact human culture.	People investigate patterns of force to predict and manipulate the world around us.	Our rights as citizens are impacted by responsibility at a local level, a national level and a global level.	Environmental changes can affect access to resources.
Grade 4	Understanding and supporting different identities can help build equity in communities.	Revolutions and revolutionaries can change the direction of societies.	Humans can communicate and express themselves using information technologies.	Energy that powers our world transfers in various ways and between objects.	Social values and economic choices interact with one another.	Internal and external body structures allow organisms to survive in their natural habitat.
Grade 5	Exploring our values helps us discover who we are.	Living things migrate in response to challenges, risks, and opportunities.	We deepen our understanding of cultures through exploration and creation.	Understanding the properties of matter can help solve problems..	Rules and expectations can reflect the values of a society.	Human activities can affect sustainability.
